WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast this morning because the skin pores do not absorb impurities into the blood, causing illness, while the bowels purge the system.

That every ounce of food and drink taken into the stomach, mostly in the form of waste material, must be carried out of the body. If this waste material is not eliminated, it will be taken into the blood, causing illness, while the bowels purge the system.

A successful health measure is to drink, before breakfast, each day, a glass of hot water with a teaspoonful of Epsom's salt in it, which is a harmless way in which these poisons, wastes and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and freshening the entire organism, can be removed before putting more food into the stomach.

A quarter pound of Epsom's salt, dissolved in a glass of water, is a safe and effective way in which these poisons, wastes and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and freshening the entire organism, can be removed before putting more food into the stomach.
